In 1936 she won the Governor's award for the outstanding 4-H exhibit at the Rutland fair. Miss Isham writes:

"During my 9 years of 4-H club work I have carried the following projects: Foods, clothing, handicraft, poultry, and gardening. In clothing I have completed 17 articles. (This does not include other articles made while not carrying the project). I have cooked approximately 100 dishes and prepared 25 meals in my foods project. I have also canned 55 quarts of vegetables, fruits, and pickles. In the 2 years that I carried poultry for a project I raised 150 chicks and made a profit. My handicraft

project was not as successful, as I do not seem to be adapted to such work. Nevertheless these years were not wasted as I attended county camps and for the first time got acquainted with other 4-H members in the county. I raised 6 bushels of vegetables in my garden last year.

"I have attended county camps, once as a delegate, the following year as honor camper, and another year as counselor. I have attended three State 4-H Weeks - the first year as a delegate, the second year I was initiated into the Honorary 4-H Society, and last year as a local leader."
